STOCKHOLM

Design by Bernadotte & Kylberg

STOCKHOLM

Design by Bernadotte & Kylberg

With the new collection of centerpieces, STOCKHOLM, Swedish design duo Bernadotte & Kylberg creates an iconic series of vases and bowls for Danish design brand Stelton.

The STOCKHOLM collection is inspired by the Stockholm archipelago and the Baltic Sea. The ever-changing scenery of the sea is an infinite source of inspiration for the collection's artistic expression and its aquatic blue colour palette. The serenity experienced at sea, but also the sea's occasionally dramatic scenery is intensely captured in the aquatic design evoking the viewer's senses.

Combining the artistic graphics with the soft, rounded shapes of the vases and bowls STOCKHOLM is a breathtaking centerpiece collection. Using an innovative production technique the graphics are presented in cold enamel on organically shaped aluminum based vases and bowls. Each piece is finished by hand for a perfecting touch giving each item a unique expression.

The STOCKHOLM collection includes a range of 4 bowls and 3 vases. True to the designers' source of inspiration, the pattern has been named Aquatic and is available as of March 2015 in selected stores and in our online shop at www.stelton.com.

Be seduced by the beauty of STOCKHOLM

“For us, design is more than colour and form. Our aim is to design products that you will continue to enjoy year after year. Design needs to be inspirational, made of high quality materials and produced in a fair way.”

– Bernadotte & Kylberg

The agency Bernadotte & Kylberg was established in 2012 by Carl Phillip Bernadotte (born 1979) and Oscar Kylberg (born 1972). The design philosophy of the Swedish design duo is to create iconic and inspiring designs that are made to last. Since it's founding the design duo has worked with a range of well-known interior design and fashion brands bringing their organic and aspirational designs to life.

This spring Bernadotte & Kylberg have chosen to join forces with the Danish design brand Stelton to develop and produce the STOCKHOLM collection. The artistic and organic designs of Bernadotte & Kylberg combined with Stelton's stringent, minimalist design language have proved to be the perfect match for something truly new and unique.

STOCKHOLM

Design by Bernadotte & Kylberg

“We tried to channel the bold character of the surrounding sea into our design. By working with Indian ink on wet watercolour paper we managed to bring out both the serenity and the dramatic expression of the sea. Combining the eloquent graphics with the soft organic shapes of the vases and bowls we aspired to design centerpieces with a timeless quality, a collection of artworks that evokes emotions and enriches life.”

– Bernadotte & Kylberg

The small vase

Size: Ø 131 mm, H 178 mm
Art. no.: 450-20

The medium vase

Size: Ø 166 mm, H 220 mm
Art. no.: 450-21

How to care for Stockholm

- Each item is finished by hand for a unique expression.
- Made of aluminum and cold enamel—a new production technique.
- Can be used for cold foods i.e. fruit and snacks.
- To be cleaned with a soft cloth or if needed lukewarm water with dish soap and dried with a soft cloth.
- Not dishwasher safe.

Nordic

The STOCKHOLM collection is the first product launch in Stelton's new design family Nordic. Inspired by the Nordic landscape and design tradition, Stelton is proud to launch a collection of centerpieces rooted in Scandinavia's minimalist but artistic design values.
