STOCKHOLM

*Design by Bernadotte & Kylberg*

**W**ith the new STOCKHOLM collection Swedish design duo Bernadotte & Kylberg creates an iconic series of vases and bowls for Danish design brand Stelton. The STOCKHOLM collection is inspired by the Stockholm archipelago and the Baltic Sea. The ever-changing scenery of the sea is an infinite source of inspiration for the collection's artistic expression and its aquatic blue colour palette experienced in the two STOCKHOLM designs: Aquatic and Horizon.

The serenity experienced at sea, but also the sea's occasionally dramatic scenery is intensely captured in the Aquatic design evoking the viewer's senses. With its shades of blue and green, the abstract Horizon design depicts the picturesque seascape in Stockholm's archipelago.

Combining the artistic graphics with the soft, rounded shapes of the vases and bowls STOCKHOLM is a breathtaking centerpiece collection. Using an innovative production technique the graphics are presented in cold enamel on organically shaped aluminum based vases and bowls. Each piece is finished by hand for a perfecting touch giving each item a unique expression.

The STOCKHOLM Aquatic collection won the prestigious Red Dot 2015 design award for high design quality.

The STOCKHOLM collection includes a range of 4 bowls and 3 vases. STOCKHOLM Horizon and Aquatic are available in selected stores and online at [www.stelton.com](http://www.stelton.com).

Stockholm vase, medium - art. no. 451-21

Stockholm vase, large - art. no. 451-22

*“We tried to channel the bold character of the surrounding sea into our design. By working with Indian ink on wet watercolour paper we managed to bring out both the serenity and the dramatic expression of the sea. Combining the eloquent graphics with the soft organic shapes of the vases and bowls we aspired to design centerpieces with a timeless quality, a collection of artworks that evokes emotions and enriches life.”*

– Bernadotte & Kylberg

The agency Bernadotte & Kylberg was established in 2012 by Carl Philip Bernadotte (born 1979) and Oscar Kylberg (born 1972). The design philosophy of the Swedish design duo is to create iconic and inspiring designs that are made to last. The designers have worked with a range of well-known interior design and fashion brands bringing their organic and aspirational designs to life.

Bernadotte & Kylberg joined forces with Danish design brand Stelton to develop and produce the STOCKHOLM collection. The artistic and organic designs of Bernadotte & Kylberg combined with Stelton's stringent, minimalist design style have proven to be the perfect match for something truly new and unique.
